# OPD Monthly Report

In an effort to ensure more effective data-gathering and more efficient use of CPAB meeting time, the CPAB has created a process by which you will submit, on a monthly basis, updates from your community policing projects and strategies. These updates will be reviewed and discussed by the CPAB and will offer an avenue for more targeted and efficient dialogue. Please submit your responses to the questions below.

\* **Required**

## 1) Full Name and Title \*

Chris Bolton, Deputy Chief of Police

## 2) Relevant OPD Crime Statistics with Explanation \*

Please see Citywide and Police Area Year-To-Date Crime Reports for the last available period. Departmentwide focus on serious and violent crime is sustained. Efforts include investigation and apprehension in addition to prevention through a variety of measures including our Violent Crime Operations Center, Ceasefire, Criminal Investigations Bureau, Bureaus of Field Operations, and Community Resource Officers in addition to citywide and community partner efforts. A verbal report will be provided on the number of illegally used or possessed firearms that have been recovered and number of homicide suspects safely arrested and critical incidents safely handled through tactics and strategies designed to offer the best outcomes possible.

## 3) Community Policing Projects and Updates

Officer Sheldon Sumpter, Area 5 Community Resource Officer, provided the below report for Community Police Beat 31Z:

### **Nature of Project: ENCAMPMENT CLOSURE (RUSSET St & MOORPARK St)**

#### **Nature of the problem:**

- 1: The heightened level of health and safety hazards related to the encampment conditions which negatively impact the unsheltered community and surrounding neighborhood.
- 2: Blight issues and neighborhood reports and complaints regarding oversized RV's, abandoned automobiles, and stolen vehicles.

#### **Stakeholders:**

1. Local residents reported unsafe, unhealthy conditions and behavior associated with the encampment location and residents.
2. RV's along with Abandoned and/or Stolen auto's increased criminal activity and unwarranted fear for local residents.

3. Local residents and business owners were unable to safely access their driveways or sidewalks due to the RVs, Abandoned Auto's and debris obstructing their pathway.

**HISTORY:**

The Russet St and Moorpark St area, located in the Stonehurst neighborhood on Beat 31Z, is unfortunately known for abandoned automobiles. Calls for service and complaints regarding abandoned automobiles are chronic in nature. Some of the abandoned automobiles are often reported stolen. Calls for service in the area are typically for encampments, abandoned vehicles, vehicles blocking driveways, drug activity, fireworks, or gunshots. A problem-solving approach was selected in hopes of identifying possible solutions, a team approach, improving conditions and services for all involved, and reducing calls for service and service demand.

Back in January 2020, the majority of the encampment was located along the Union Pacific Train Tracks, just north of Russet St. The fencing that separated Russet St and the Union Pacific tracks had been torn down by the encampment members, allowing easy access for their vehicles. In February 2020, the encampment was removed from the Union Pacific tracks, and had relocated to Oakland jurisdiction (Russet St and Moorpark St). By March 2020, the Covid-19 pandemic occurred, and policies changed. Alameda County and the City of Oakland halted certain responses towards encampments and unsheltered members of Oakland.

In 2020, The Encampment Management Policy was created. In the Policy, it provides a framework of strategies and interventions to address homelessness in the City of Oakland. Based on the policy, the encampment at Russet St and Moorpark St, became a high sensitivity location due to the potential degradation of critical infrastructures, significant obstructions to residences, businesses, emergency routes and rights-of-way.

**Mission:**

Permanent Encampment closure following outreach for services and relocation opportunities via the City's encampment management policy.

**Cause for the Closure:**

- Inability to maintain a clean, safe, and healthy environment in the community.
- Multiple OMC codes and penal codes were violated in regard to the encampment conditions.
- The heightened level of health and safety hazard the encampment had become, put community members and encampment members at a severe risk.
- Illegal dumping of debris on the street and on sidewalks in front of residential homes. Human waste along the street, sidewalks, and near or into City drainage.
- Overwhelming amounts of emails, Oak311 reports, and calls for service ultimately led to the permanent encampment closure.

The Encampment Management (EMT) had deemed this encampment as a high sensitivity area due to the above information.

**PLAN:**

- Posting of Encampment Closure Signs
- Homeless Outreach services
- Towing Abandoned Vehicles
- Site Clean Ups

**Closure Operation:**

On 05 MAY 21, the encampment closure was conducted. Prior the operation, multiple encampment closure signs were posted along Russet St and Moorpark St. The signs were purple in color and made visible to everyone in the area. The encampment members were provided with the closure notice as well. Multiple resources, including OPD Homeless Unit, OPD Auto Abatement, and Public Works took part in a two-day operation. During the operation, on INC#247, Homeless advocates provided outreach to the encampment members. OPD units towed approximately 14 vehicles within policy, including 5 vehicles that were reported stolen. No citations were issued, nor arrests made, in relation to the encampment closure and plan.

**Prevention Measures:**

Preventive measures are being discussed and coordinated by the Encampment Management (EMT), OPD Homeless Outreach Unit, and CROs. CPTED responses are being considered such as possible concrete barriers or rails along the north side of Russet St. No timetable has been set. OPD security checks are conducted daily. Most of the encampment members have relocated although some members have relocated to other parts of the Stonehurst area as opposed to more sustainable and beneficial housing. At this point, Russet St has remained clean and clear of any encampments.

**4) Please provide data on the number of non-emergency 911 calls that were successfully diverted to community partners or alternative first responders.**

Diversion programs are not yet in place.

**5) Please indicate areas in which the CPAB can support, and engage NCPCs and block level ambassadors in supporting, community policing strategies and initiatives.**

“Sideshow” was last discussed with the CPAB as a project in need of community support and solutions. Since then, a City of Oakland townhall has been held, Department of Transportation has continued to assess preventative environmental roadway designs, and OPD has sustained commitment to provide additional weekend coverage. Community support and participation is still desired in efforts to warn, educate, or problem-solve. A verbal update with more data is available if desired.

**6) Please feel free to share any other updates, areas of progress, concerns or Complaints.**

Fireworks are another common call for service at this time of year and data indicates that more calls are being placed regarding fireworks this year than last so far. A verbal report is available if desired.

## Memo

May 25, 2021

To: Community Policing Advisory Board

From: Felicia Verdin  
Community Programs Supervisor  
Neighborhood Services Division (NSD)

Neighborhood Service Coordinators (NSC)  
NSD, Police Service Technicians (PST)

Subject: Monthly report from NSD

### Successful community partnerships/priorities

- In 29x, the NSC helped a neighbor resolve a long-standing issue of abandoned vehicles on the 6500 block of Simson Street. A thank you letter was sent to the Mayor's office, City Administrator's office and to NSC.
- In beats 30Y and 35x, two Neighborhood Councils (NC) have joined together to host a joint community clean up on Saturday, May 29.
- Neighbors in one beat with more experience have been mentoring new NC members. This has given support to new members.
- In 24Y on Suter Street the priority was squatters living illegally in a home on the block. The squatters were removed last week. They have been living in this property for over two years. **Huge win for the NCPC.**
- Due to the persistence of the 11X, an autobody shop was fined for violations. The community is pleased to progress towards addressing this priority.
- In response to recent harassment and negative interactions with homeless persons along the Lakeshore and Grand Avenue corridor. Merchant leaders in partnership with the 14Y/16X recently created a document that is intended to be a quick reference tool for merchants on what to do when confronted with a variety of uncomfortable interactions/situations. This guide details possible scenarios and step by step ways to take actions, including support resources.

- In 13Z, the Montclair Neighborhood Council held a successful Montclair Park cleanup, on Saturday, May 16, 2021.
- 25X working on getting a list of people who can help seniors with reporting issues to OPD. A lot of seniors are having issues with technology so an idea was to create a list for the seniors to contact to help them report issues to OPD.

### Select beats with challenging projects

- In 19X, prostitution and human trafficking are ongoing issues. Community meeting was held to discuss with the community.
- 11X thru their persistence with dealing with Auto Masters was fined 51,000 for violations.
- 6927 Sunkist: Problem Air B & B. Moving to the next level/Owner not adhering to the Cease & Desist letter. Next step, an Administrative Hearing.
- In beat 35x, significant environmental changes are needed to help the Community Resource Officer address frequent loitering on the 9100 block of Crest Ave.
- One of the biggest challenges is homeless encampments. The Home Depot location in beat 23 continually is cleaned but there is no long term steps taken to address the issue. Issues are spreading to neighboring residential areas.
- The community in beat 10x is working with the NSC to address the challenges of a new business in the community that does not have adequate parking which will negatively effect the neighborhood.
- There is a persistent challenge regarding homeless encampments and illegally parked RVs throughout beat 31. Residents and the NC have been working with the appropriate city services to clear some of the most challenging encampments. The NC is now moving towards building support for efforts focused on beautification and reimagining these formally occupied spaces, with the hope of deterring future encampments from resettling the area.
- In Adams Point, beat 14X, the violence continues to ravage the community with gunfire and sideshow.
- In beat 6x, blight and homeless encampment are ongoing issues. NCPC leadership is community with Caltrans and Public Works to address the concerns.

### List of select community priorities

- In beat 16y, the community is prioritizing traffic mitigation on Park Blvd.
- Cars being sold in the public right of way is an issue for many businesses along major thoroughfares. This is an ongoing issue.

### NSD/PST Block Level Update

During the month of May, the PST hosted three neighborhood meetings via, did two walking CPTEDs, and one address CPTED at a condo. The condo CPTED was at 466 Crescent St, where they've had 3<sup>rd</sup> floor balcony break ins. The Montell Street Walking CPTED addressed car break in concerns.

The Walking CPTED at 1805 International addressed homeless encampments at 12<sup>th</sup> street, with most immediate concerns being that there are encampments on both sides of 12<sup>th</sup> street, and that on the north side of 12<sup>th</sup> street that encampment is blocking access to businesses. Additionally, 12<sup>th</sup> street has no street lighting due to encampments jacking into all light posts for power. I am working on my communication to send to [homelessness@oaklandca.gov](mailto:homelessness@oaklandca.gov).

### National Night Out

NSD is gearing up for NNO 2021. The event will take place on **Tuesday, August 3 from 6pm-8pm**. We encourage residents to organize a party on their block as a way to get to know one other, look out for each other and prepare for organize. CPAB board members can get involved by attending a party in their neighborhood, organizing a party on their block or encouraging others to organize a party. Registration will open in June and NSD will be sure to share details with the board once available.

community. OPD is providing a non-enforcement deterrent presence. CRO's are rotated on weekends.

DC Bolton also provided information on side shows and the utilization of social media to deter attendees and organizers.

Sargent Hall discussed the SARA project at the Lake Merritt Boathouse – 300 events have been logged with OPD. CRO Gonzalez opened a SARA project for loud music and activities at the Boathouse. OPD will not demand that the music be turned off, the events include roller skating, skateboarding and BMX bike riders. Looking for ways to permit the activities, regulated by rules with buy-in from the community. Current rules are that the lake be closed by 10pm and that music is not heard with 50 feet.

BM Ettliger - crime stat reports – requested information on the shooting at Bookers Liquor store and the April 14<sup>th</sup> fire info from the taskforce, Ceasefire and the DVP. Are business owners being protected?

DC Bolton stated that an investigation is in progress. The incident is being prioritized by OPD. Violence impacts the entire city.

BM Dalke requested information on the sideshows and crime stats. Requested the slides from the Mayor's townhall on sideshows. Would like the data that went into the slideshow. DC Bolton explained the data used to create the slides.

Chair Davis recommended that the activity at the boathouse become "silent" disco gatherings utilizing Bluetooth. Offered to work with OPD for a solution.

DC Bolton stated that parking and use issues including garbage and illegal activities generate many of the calls for service, and they want enforcement.

BM Blacksher appreciated that non-confrontational tactics and the work on deterring sideshows.

**Open Forum – 2 Speakers – 2 minutes**

Assata Olugbala – Asked why is legal parking being denied. Spoke of seeing officers at the lake protecting officers who were issuing tickets. She will go to the Boathouse to see what is going on there.

DC Bolton – OPD recently had a recruitment booth at the lake. He then provided an update of the Community Trust Officer – the role is to help build trust and collaboration with OPD and the community... it is 1 position in the Chief's office and works with the PIO and can help with notifying neighbors when there is a police action. Will invite the TCO to a CPAB future meeting.

Reisa J. – spoke of the Negotiated Settlement Agreement – bad officers could be removed – it destroys community trust.
