|--|------------------------|-------------------------|----------------------|---------------------|-----------------------------|
| | Tier 1 (Widespread) | Tier 2 (Substantial) | Tier 3 (Moderate) | Tier 4 (Minimal) | Alameda County (4/13/21) |
| Adjusted Case Rate per 100,000* | >10 | 6 to 10 | 2 to 5.9 | <2 | 3.1 |
| Overall Test Positivity Rate | >8% | 5% to 8% | 2% to 4.9% | <2% | 1.2% |
| Lowest HPI Quartile Test Positivity Rate | >8.0% | ≤8.0% | <5.2% | <2.2% | 2.1% |

*California reached its second Statewide Vaccine Equity Metric Goal to administer 4 million doses to persons living in the Vaccine Equity Quartile, and tier case ranges have been changed for the Red, Orange and Yellow tiers.

As certain activities are allowed to resume, proceed with caution.

COVID-19 case rates, hospitalizations, and deaths are falling, but the virus remains present in our community.

Vaccinations are occurring as quickly as supplies allow, but most people in our community are still not vaccinated.

Remember: Just because it is allowed, it does not necessarily mean it is safe.

GUIDANCE & RESOURCES

General information about COVID-19 vaccine planning and administration

CDC has recommended a pause in the use of the Johnson & Johnson (Janssen) COVID-19 vaccine in the United States out of an abundance of caution, effective Tuesday, April 13. Of the 6.8 million Johnson & Johnson COVID-19 vaccine doses administered in the United States to date, six cases of a type of blood clot called cerebral venous sinus thrombosis (CVST) were seen in combination with low levels of blood platelets (thrombocytopenia). The CDC advised the [Advisory Committee on Immunization Practices \(ACIP\)](#) on Wednesday, April 14, to further evaluate the safety of COVID-19 vaccines.

Beyond the Blueprint for a Safer Economy

4/6/2021

Related Materials [En Español](#)

As we reach 20 million vaccines administered and COVID-19 case rates and hospitalizations have stabilized, California is looking to move beyond the Blueprint for a Safer Economy to fully reopening our economy. On June 15, all industries across the state can return to usual operations with common-sense risk reduction measures such as masking and vaccinations.

Source: [California Department of Public Health, Beyond the Blueprint for a Safer Economy](#)

Alameda County
Health Care Services Agency

Alameda County Public Health Department
Celebrating Healthy People in Healthy Communities

What triggers our move Beyond the Blueprint?

On June 15, California will fully open its economy if the following **two** criteria are met:

- 1) Equitable vaccine availability: If vaccine supply is sufficient for all Californians aged 16 years or older, who wish to be inoculated.
- 2) Consistently low burden of disease: If hospitalizations are stable and low, and specifically if hospitalizations among fully vaccinated individuals are low.

What happens beyond the Blueprint?

- All sectors listed in the current [Blueprint Activities and Business Tiers Chart](#) may return to usual operations, in compliance with statewide agency guidelines and standards such as masking, testing, and testing or vaccination verification requirements for large-scale higher-risk events.
- Schools and institutions of higher education conduct full-time, in person instruction, in compliance with Cal/OSHA emergency temporary standards and public health guidelines.
- Workplaces promote policies that reduce risk, including improved indoor ventilation, and mask-wearing in indoor and other high-risk settings, as well as remote work without impacting business operations, when possible.
- Californians and travelers will be subject to any current CDPH and CDC travel restrictions.

Events and Performances State Guidance

General Requirements for all Events

1. Required use of face coverings
2. Workplace COVID-19 Prevention Program
3. Outbreak and Testing
4. Individual Control Measures and Screening
5. Ventilation
6. Cleaning and Disinfecting Protocols
7. Physical Distancing

Outdoor Seated Live Events/Performances

1. Activity

- Outdoor live events with assigned seats and controlled mixing (e.g. sports and live performances)

2. Requirements

COVID WORKPLACE UPDATE

Updates to the Blueprint for a Safer Economy

Effective April 15, 2021, the [California State Blueprint for a Safer Economy](#) reopening framework will allow additional activities to resume with modifications to reduce risk. This update will include guidance for gatherings, private events or meetings such as receptions or conferences, and indoor live events and performances. For more information, see the most recent [California State COVID-19 Press Release](#).

As vaccines continued to be administered statewide and COVID-19 case rates and hospitalizations have remain stable, the California Department of Public Health announced last week that they will be looking to move California beyond the Blueprint for a Safer Economy to fully reopening our economy on June 15 when two criteria are met: 1) equitable vaccine availability for Californians ages 16 years and older and 2) consistently low burden on disease where hospitalizations are stable and low. Visit the [Beyond the Blueprint for a Safer Economy announcement](#) for more information.

Cal/OSHA COVID-19 Guidance and Resources

Cal/OSHA COVID-19 Guidance and Resources

Workplace safety and health regulations in California require employers to take steps to protect workers exposed to infectious diseases like the Novel Coronavirus (COVID-19), which is widespread in the community. Cal/OSHA has posted the following resources to help employers comply with these requirements and to provide workers information on how to protect themselves and prevent the spread of the disease.

Cal/OSHA recommends the guidance, educational materials, model programs and plans, and other resources that are provided below, be reviewed with an employer's existing procedures to ensure that workers are protected.

- COVID-19 Emergency Temporary Standards**
Information and materials related to the new COVID-19 Prevention Emergency Temporary Standards
- Guidance by Industry**
Produced by Cal/OSHA, CDPH, the Governor's Office and other state agencies
- Frequently Asked Questions**
FAQs on reporting and recording COVID-19 illnesses, new laws and...
- Educational Materials and Other Resources**

Welcome to SPOT

The goal of the School and Shared Portal for Outbreak Tracking (SPOT) is to expand California's contact tracing efforts by facilitating collaboration and sharing of information between schools, workplaces, and local health departments (LHDs), through CalCONNECT, California's public health contact tracing and data management system.

This SPOT portal is available, within certain LHDs, for schools and businesses to report COVID-19 exposures at their locations and worksites to their local health departments.

Once the information you enter is reviewed by the health department, you may be provided additional login credentials to enter specific data about persons involved in the exposure.

Select the Local Health Jurisdiction associated with the exposure you need to report:
